A year has gone by since the AIB Executive Secretariat moved to the International Business Center (MSU-CIBER) at Michigan State University. As most of you know, I took over as Executive Secretary on January 1, 2004, with Dr. Tunga Kiyak as the Managing Director and Dr. Irem Kiyak as Treasurer (as a point of history, the Executive Secretary title was later changed in March 2004 at the AIB Executive Board meeting to Executive Director). During the last year, we hope that you have had the chance to actively participate in AIB activities by attending the Stockholm meeting in June, the newly organized “Frontiers Conference” in East Lansing, MI in September, or have submitted papers for review in JIBS.

We also hope that you have taken advantage of the revised AIB website (http://aib.msu.edu). The site averaged more than 670,000 hits per month during 2004, peaking at about a million hits right before the annual conference. This traffic and exposure places the AIB site in the top 20 in “international business” in the world on most major search engines. I would like to particularly highlight the “resources” section on the site, a section that has a wealth of announcements, course content, and research-focused items for scholars.

On a more negative note, last year was a difficult year for AIB. In particular, we had to move the annual meeting from Istanbul, Turkey to Stockholm, Sweden. The final decision to make this move was taken as late as March at the Board meeting. This resulted in a frantic time for the AIB Executive Secretariat, the AIB Executive Board, and many involved AIB members. We appreciate the assistance from the Stockholm School of Economics in this endeavor and, personally, I owe lots of thanks to our Managing Director, Tunga Kiyak, for making the Stockholm meeting happen (in my home country of Sweden no less!). Since most of our efforts were placed on the annual meeting and the Frontiers Conference, which was also organized by the AIB Executive Secretariat in September, we did not publish as many Newsletters and Insights as expected. We apologize for this and promise to be back to a normal schedule in 2005.

As it turned out, we ended up having the largest number of people ever at the annual meeting in Stockholm; 811 people attended in the final count (Phoenix had 697 attendees in 2000 as the second largest meeting). We appreciate all “old” and new members’ support, and hope that we will see a large number of members again in Quebec City, July 9-12. We have had almost as many submissions for the Quebec meeting as we did for the Stockholm meeting so we are looking forward to another successful event with memorable activities. Yves Doz is in the process of putting together a program on the theme of “Local Roots, Global Links” that promises to be highly rewarding intellectually.

“Hot off the presses,” based on contacts established by Julian Birkinshaw, we have obtained $20,000 from the Society for the...
Advancement of Management Studies (SAMS) in support of the AIB Doctoral Consortium to be held in conjunction with the annual meeting. As stated by the AIB President Alan Rugman, “It is one of the most significant funding opportunities for AIB in recent years as the promotion of doctoral students with an international dimension could not be more important for the future of IB.” The SAMS funds will be used for travel awards, best dissertation proposal award, and general expenses related to the doctoral consortium; as such, the SAMS relationship will greatly enhance the value of the doctoral consortium. Look for more details regarding how to apply for a scholarship and/or the dissertation proposal award in the Doctoral Consortium announcement appearing in the 2005 Conference information booklet included with this newsletter.

On April 23-25, 2004, a conference titled “Governance, Multinationals and Growth” was held at the Rotman School of Management, University of Toronto, in honor of Professor Emeritus Ed Safarian on the occasion of his 80th birthday. Born in Hamilton, Prof. Safarian received his BA in Political Economy from the University of Toronto in 1946 and a PhD in Economics from the University of California, Berkeley, in 1956. An Economics professor at the University of Toronto since 1966 and of the Business Economics department since 1989, Safarian has been president of the Canadian Economics Association (1977-78) and a Fellow of the Royal Society of Canada since 1973. Like many of his retired colleagues, Prof. Safarian continues to teach part-time and to publish in scholarly journals including the Journal of International Business Studies. The conference was organized by Lorraine Eden (Texas A&M), Wendy Dobson (Toronto) and Walid Hejazi (Toronto). The papers prepared for the conference were designed to build on the foundation laid by Safarian—a major contributor to our understanding of multinational enterprises, foreign direct investment and public policy—by exploring the linkages between multinational enterprises, growth and governance. The groundwork for a large part of the discussion was established in Safarian’s classic 1966 study Foreign Ownership of Canadian Industry (University of Toronto Press), and his 1993 book Multinational Enterprises and Public Policy (Edward Elgar). Sponsored by the Rotman School, Industry Canada and the Department of Foreign Affairs and International Trade, attendees at the conference included public policy officials and more than 50 academic colleagues from across Canada, the U.S. the UK, and Australia. Among those presenting papers were Richard Caves (Harvard), John Dunning (Reading & Rutgers), Alan Rugman (Indiana) and Bernard Yeung (New York University). See the attached photograph and list of names of many of the conference attendees. The conference papers are being revised for the book, Governance, Multinationals and Growth, edited by Lorraine Eden (Texas A&M) and Wendy Dobson (Toronto), which will be published by Edward Elgar in 2005.

Theme for the 2005 Conference

The overall theme for the 2005 Frontiers Conference is Bridging IB Theories, Constructs, and Methods Across Cultures and Social Sciences. The goal is to explore the intersection of the social sciences and diverse national perspectives as they relate to a rapidly morphing domain of International Business. The programme committee is especially interested in encouraging ground breaking ideas as they apply to emerging topics such as:

- sourcing and locating human capital anywhere in the world (global outsourcing/offshoring of labour-intensive and/or knowledge intensive work);
- the globalization of national companies (entry modes, stages of internationalization process);
- the international expansion of start ups (global start-ups);
- IB and sustainability (corporate social responsibility, natural environment);
- new organizational forms and dimensions of truly global corporations (e.g., ambidextrous multinational organizations; new horizontal and vertical intra- and interorganizational modes for knowledge absorption);
- global hypercompetition and international cooperation (cross-national mergers, acquisitions, joint-ventures and alliances);
- the re-shaping of IB in relation to the entry of global competitors from China, India, South Korea and other newly developed economies;
- new perspectives that increase the theoretical grounding of IB or introduce new theories and concepts (e.g., coevolution, thrust, IB exploration vs. exploitation strategies, managing diversity) from adjacent disciplines.

These and other IB issues should be addressed by scholars at different levels of analysis, including (1) individual and group level, (2) functional-level focus, (3) organizational-level focus, and (4) population level, (5) extended enterprise-level focus (e.g., web based global network organizations, offshoring of white collar jobs, global supply chains). Consequently, high-quality proposal are requested for panels and individual papers in four areas.

- Cross cultural and cross disciplinary theoretical frameworks that broaden the scope of IB scholarship.
- New approaches to established IB themes in strategy, HR, international, political economy, comparative capitalism, entrepreneurship, ethics, corporate governance functional areas of international business, etc.
- New or borrowed empirical methodologies that should be considered by IB scholars.
- Bridging the arenas of IB research and practice. Strong preference for academic proposals will be given to those that exemplify state of the art conceptual, analytical, empirical, and behavioural approaches. Comprehensive reviews of major research areas that either shut down old orthodoxies or redirect research are also encouraged.

Three Lenses on the Multinational Enterprise: Politics, Corruption and Corporate Social Responsibility

Due Date: August 21, 2005

Co-Editors:
Lorraine Eden, Texas A&M University, JIBS Departmental Editor
Amy Hillman, Arizona State University, JIBS Guest Editor
Peter Rodriguez, University of Virginia, JIBS Guest Editor

Introduction

Scholars who study multinational enterprises (MNEs) have recently drawn substantial attention to the complex relationship between international business and society. The rapid pace of globalization, ever-increasing volumes of international trade and investment, coupled with recent corporate scandals have substantially heightened the importance of issues relating to politics, corporate social responsibility (CSR) and corruption. When compared to other international business topics, research on these three “lenses” on the MNE—politics, corruption and CSR—remains somewhat embryonic, with critical unresolved issues regarding frameworks, measurement, methods and theory. Extant research on these issues has developed in parallel but autonomous fashion. This creates rich opportunities for integration and extension of disciplinary perspectives since the research questions that arise from consideration of these issues cut across numerous business disciplines (e.g., strategy, finance, accounting, marketing) and often benefit from insights drawn from other social science disciplines (e.g., economics, political science, sociology, psychology, geography). Moreover, these topics are germane to countries at all levels of economic development and may be pursued via theoretical and empirical (quantitative or qualitative) efforts. We therefore encourage scholars who work in these areas, regardless of disciplinary boundaries, to submit to the Focused Issue, and interdisciplinary approaches are particularly encouraged.

Research Questions

Some research questions that might be addressed in this *JIBS* Focused Issue include:

- How do MNE political strategies vary across nations?
- How do MNE political strategies influence firm performance and public policy?
- How are MNE political strategies integrated with market strategies?
- How does government or private sector corruption affect firm strategy and performance?
- What is the relationship between private sector corruption and government corruption?
- What determines the experience of corruption for firms and how can it be managed?
- What is the best way to benchmark CSR activities of firms across countries?
- Is there a tradeoff between CSR and firm performance and how does this vary across countries?
- What is the relationship between corporate leadership and CSR?
- What is the relationship between government regulation and CSR in various countries?
- What is the relationship between government corruption and MNE political strategies?
- What is the relationship between MNE political strategies and their propensity to engage in CSR?
- How do institutions affect the corruption, CSR and political activities of multinationals?

**Based on rankings by Yahoo (yahoo.com) and Google (google.com) on Sept. 3, 2004 using the search term "international business."
The Adopt-a-Library Scheme was set up by the AIB so that libraries from developing countries can subscribe to JIBS, despite their very limited resources.

This enables researchers and teachers from these territories to access JIB’s significant, thought-provoking papers and further extend the boundaries of international business research.

How you can help

For as little as $20.00 you can sponsor a subscription and provide online access to JIBS for a university library from a developing country.

Your $20.00 will not only provide access to the current issues of JIBS but also to the complete archive from 1970.

Comprehensive access as a result of your contribution.
